

**Structured Inter-Disciplinary Rounds (SIDR)
New Admission Communication Tool
INTERACT project**

The **INTER**disciplinary **A**pproaches to **C**ommunication and **T**eamwork (**INTERACT**) project is designed to improve communication and teamwork on general medical hospital units. The intervention consists of Prepared Nurse-Physician Co-Leadership and Structured Inter-Disciplinary Rounds (SIDR). The project is supported by a grant from the Agency for Healthcare Research and Quality. This New Admission Communication Tool is intended for use during SIDR to ensure a shared understanding of the plan of care for newly admitted patients.
